# Buyers Guide

SELECT the right DiaLine for you

3

## Select your Orifice

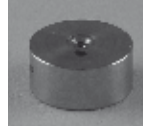

The DiaLine is designed for use with Diamond orifices. AccuStream recommends stocking a few DiaLine ruby orifices as backup in case of emergency.

### 1 Diamond Orifice

12749-xxx  
Available in sizes .008-.018

### 2 Ruby Orifice

12835-xxx  
Available is sizes .004-.020

4

## Protect your Investment

In order to maximize the life of your DiaLine Diamond AccuStream recommends the use of our Thimble style filter. A 600 hour warranty on the Diamond orifice is offered to those customers using the thimble filter.

The Thimble filter is a small stainless filter with very small holes drilled in a unique pattern to capture any foreign debris which might damage the diamond. AccuStream offers two different modified high pressure fitting to house the filter.

### 1 Thimble Filter 3/8"

3/8" Female to 3/8"  
Male HP KIT  
13174

### 2 Thimble Filter 1/4"

1/4" Female to 3/8"  
Male HP KIT  
12553
